

John Eikelboom, MBBS, MSc, FRCPC is associate professor in the Department of Medicine, McMaster University, and haematologist in the Thrombosis Service, Hamilton General Hospital, Ontario, Canada. He completed his training in internal medicine and haematology in Perth, Australia, in 1998 and subsequently undertook a Fellowship in Thrombosis Medicine and Clinical Research Methodology at McMaster University, Hamilton. He returned to McMaster in 2005 to take up a Tier II Canada Research Chair in Cardiovascular Medicine.

Dr Eikelboom is a member of the editorial boards of *Thrombosis and Haemostasis* and the *Canadian Journal of Cardiology* and serves on the Advisory Board for the *Journal of Thrombosis and Haemostasis* and has authored or co-authored more than 250 articles in peer-reviewed journals. His current research, supported by the Canadian Institutes for Health Research, the Heart and Stroke Foundation and the National Health and Medical Research Council of Australia, focuses on the efficacy and safety of antithrombotic therapies, the prognostic importance of bleeding and transfusion, and the mechanisms of variable response to antiplatelet drugs.
